Attachment #4, Vicinity Map

Fish & Wildlife Dept of; Tucannon River LWD Stream Habitat Restoration (#11-1586)
 Attachment #3, Site map

This map shows the 2 mile reach where whole trees will be placed by helicopter from the Umatilla National Forest to the Tucannon River. The red area indicates the location of the cobble push-up berms (dikes).

Dike removal within the overall project reach from 46.2745189° N 117.6568304° W upstream to 46.2720762° N 117.6558415° W. The area is approximately 1,500 feet with two 150 foot cobble berms that will be leveled.
